PROFESSIONAL SUMMARY

MERN Stack Developer with 6 months of Full Stack Developer internship experience developing web applications using **React.js, Node.js, Express.js, MongoDB, and Redux Toolkit**. Experienced in building responsive user interfaces, RESTful APIs, authentication and authorization systems, role-based access control, CRUD operations, API integrations, and database-driven applications. Strong foundation in JavaScript, Data Structures and Algorithms, Object-Oriented Programming, debugging, and full-stack development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C

Frontend: React.js, HTML5, CSS3, Bootstrap, React Hooks, React Router, Responsive Web Design

State Management: Redux Toolkit

Backend: Node.js, Express.js, RESTful APIs, Middleware, MVC

Database: MongoDB, Mongoose

Authentication & Security: JWT, Authentication, Authorization, Protected Routes, Role-Based Access Control

API & Development: Axios, CRUD Operations, API Integration, JSON Server

Tools: Git, GitHub, VS Code, Postman, npm, Vite

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DOM Manipulation, Debugging, Problem Solving

EXPERIENCE

FULL STACK DEVELOPER INTERN | MAXIMA GAMING STUDIO

6 Months

- Developed full-stack web application features using **React.js, Node.js, and Express.js**.
- Built reusable **React.js components and responsive user interfaces** for maintainable web applications.
- Developed and integrated **RESTful APIs using Node.js and Express.js** for frontend-backend communication.
- Integrated **MongoDB and Mongoose** for application data storage and backend data management.
- Implemented **JWT-based authentication and protected functionality** to secure application resources.
- Integrated frontend applications with backend APIs using **Axios** and managed API-driven application state.
- Debugged and resolved **frontend, backend, API, and authentication issues** during development.
- Used **Git and GitHub** for version control and source-code management.

PROJECTS

CORE BANKING SYSTEM

MERN STACK

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, JWT, Bootstrap

- Developed a full-stack MERN banking system supporting **3 branches and 20,000+ account holders**.
- Implemented **JWT authentication, RBAC, protected routes, and authorization** for Admin, Manager, Branch Manager, and Employee roles.
- Built RESTful APIs and MongoDB data models for **users, accounts, branches, employees, and transactions**.
- Developed responsive React dashboards with Redux Toolkit for **centralized state management**.

INTERVIEW PREPARATION & RESUME ANALYSIS SYSTEM

MERN STACK

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs, PDF Processing, AI

- Developed a MERN application for **resume analysis and automated interview preparation** based on job descriptions.
- Implemented **PDF file upload and text extraction** with backend validation and error handling.
- Built REST APIs using Node.js and Express.js with MongoDB for **candidate data and generated reports**.
- Integrated **AI-based report generation** for resume analysis, interview questions, and preparation recommendations.

HRMS – HUMAN RESOURCE MANAGEMENT SYSTEM

REACT.JS

Technologies: React.js, Redux Toolkit, Bootstrap, JSON Server, REST APIs

- Developed a React-based HRMS for **employee, attendance, leave, and dashboard management**.
- Implemented **Redux Toolkit** for centralized state management and API-driven updates.
- Built reusable, responsive React components and integrated **REST APIs** for application operations.

PROBLEM SOLVING

- Solved **50+ JavaScript and DSA problems** covering arrays, strings, objects, and algorithmic logic.

- Practiced **Data Structures and Algorithms, Object-Oriented Programming, and JavaScript** problem solving.

ACHIEVEMENTS

- Solved **50+ JavaScript and DSA problems** covering arrays, strings, objects, and algorithmic logic.
- Completed **Full Stack Web Development training** at Red & White Multimedia Education.
- Completed hands-on development of multiple **MERN Stack projects** involving authentication, REST APIs, MongoDB, Redux Toolkit, and AI integration.
- Built and developed **full-stack web applications** demonstrating practical experience in frontend, backend, database, and API development.
- **Certificates & Project Documentation:** [View Certificates & Documentation](#)

EDUCATION

Bachelor of Technology – Information Technology
Bhagwan Mahavir University, India

2022 – Present
