PROFESSIONAL SUMMARY

MERN Stack Developer with **6 months of Full Stack Developer internship experience** building web applications using **React.js, Node.js, Express.js, MongoDB, and Redux Toolkit**. Experienced in developing responsive user interfaces, RESTful APIs, authentication and authorization systems, role-based access control, CRUD operations, API integrations, and database-driven applications. Strong foundation in **JavaScript, Data Structures and Algorithms, Object-Oriented Programming, debugging, and full-stack development**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C

Frontend: React.js, HTML5, CSS3, Bootstrap, React Hooks, React Router, Responsive Web Design

State Management: Redux Toolkit

Backend: Node.js, Express.js, RESTful APIs, Middleware, MVC

Database: MongoDB, Mongoose

Authentication & Security: JWT, Authentication, Authorization, Protected Routes, Role-Based Access Control

API & Development: Axios, CRUD Operations, API Integration

Tools: Git, GitHub, VS Code, Postman, npm, Vite

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DOM Manipulation, Debugging, Problem Solving

EXPERIENCE

FULL STACK DEVELOPER INTERN | MAXIMA GAMING STUDIO

6 Months

- Developed full-stack web application features using **React.js, Node.js, and Express.js**.
- Built reusable **React.js components and responsive user interfaces** for maintainable web applications.
- Developed and integrated **RESTful APIs using Node.js and Express.js** for frontend-backend communication.
- Integrated **MongoDB and Mongoose** for application data storage and backend data management.
- Implemented **JWT-based authentication and protected functionality** to secure application resources.
- Debugged and resolved **frontend, backend, API, and authentication issues** during development.

PROJECTS

CORE BANKING SYSTEM

MERN STACK

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, JWT, Bootstrap

- Developed a MERN-based banking system supporting **3 branches and 20,000+ account holders**.
- Implemented **JWT authentication, role-based access control, protected routes, and authorization** for multiple user roles.
- Developed RESTful APIs and MongoDB data models for **users, accounts, branches, employees, and transactions**.

INTERVIEW PREPARATION & RESUME ANALYSIS SYSTEM

MERN STACK

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs, PDF Processing, AI

- Developed a MERN application for **resume analysis and interview preparation** based on job descriptions.
- Implemented **PDF upload, text extraction, validation, and backend processing**.
- Built RESTful APIs with MongoDB and integrated **AI-based resume reports and interview questions**.

HRMS – HUMAN RESOURCE MANAGEMENT SYSTEM

REACT.JS

Technologies: React.js, Redux Toolkit, Bootstrap, JSON Server, REST APIs

- Developed an HRMS for **employee, attendance, leave, and dashboard management**.
- Implemented **Redux Toolkit, REST APIs, and reusable responsive React components**.

EDUCATION

Bachelor of Technology – Information Technology

2022 – Present

Bhagwan Mahavir University, India

TRAINING & ACHIEVEMENTS

- Completed **Full Stack Web Development training** at Red & White Multimedia Education.
- Solved **50+ JavaScript and DSA problems** covering arrays, strings, objects, and algorithmic logic.
- Built multiple **MERN Stack projects** involving authentication, REST APIs, MongoDB, Redux Toolkit, and AI integration.
- **Certificates & Project Documentation:** [View Certificates & Documentation](#)
